

# New Zealand Sustainability Landscape

Sustainability principles have been adopted by organisations throughout New Zealand. Some of the key initiatives are:

## Pure Advantage

Leading New Zealand's Green Growth

NZ's natural advantages including agriculture (regenerative), biodiversity, bio-products, built environment, renewable energy, smart systems and waste to value. Net Zero NZ and Impact Investment

[www.pureadvantage.org](http://www.pureadvantage.org)

## Sustainable Business Council

Helping businesses be the best for New Zealand and the world.

Sustainable leadership, climate, natural capital, consumer decision-making, Sustainable Development Goals and the future of work.

Over 100 members, including some of New Zealand's largest companies

[www.sbc.org.nz](http://www.sbc.org.nz)

## United Nations Sustainable Development Goals

Bringing together the three dimensions of sustainable development: economic, social and environmental.

New Zealand's first progress report on the SDGs, co-ordinated by the Ministry of Foreign Affairs and Trade, will be presented to the UN in July 2019.
